

Bowie Gardens

What is GEEF?

The Greenville Educational Enrichment Foundation serves to further strengthen the district and provide opportunities that are not funded by state or local means.

Our mission is to generate funding and support to enrich and expand the educational goals of the Greenville Independent School District.

Last year, we were able to make innovative teaching and learning a reality for teachers and students at all campuses.

YOUR GIFT WILL ENCOURAGE A TEACHER AND INSPIRE STUDENTS

We believe in investing in the success of our students. Do you? Please join us by making a generous contribution. With your help, it's all possible. We can reach more children, offer more learning enrichment experiences and open more doors that will change more lives. From small beginnings come amazing things. The life of every child can be proof of that.
